MEMORANDUM FOR: Office of Legislative Counsel

SUBJECT: Export Expansion and Regulation Act of 1969,  
S. 1940

1. This is in response to your request of 14 May 1969 regarding the effect of S. 1940 on Agency activities. 25X1C

3. It is conceivable of course that some reduction might occur in the number of requests for information on the [REDACTED] simply because the list would be smaller. This would have limited impact on our collection activities since requests are infrequent and do not require major collection efforts by us.

4. It is my belief that enactment of the bill would have little effect on Clandestine Service activities.
